EASY PRIVATE LABEL

WHAT DOES IT MEAN?

For smaller hotels, a proprietary (private) label is often impractical due to high order quantities. Therefore, in Q2 of this year, HAIL Europe is launching 'EASY Private Label'.

Choose from a selection of four popular standard products: hand soap, shampoo, body wash, and lotion, all in a delightful fragrance selected by HAIL Europe, packaged in a 100% rPET 400 or 475ml bottle with a snap-on closure.

Your client only needs to choose which products to start with and select the desired content or make a choice based on the color of the bottle. Through our in-house design studio, a private label is created, which, upon approval from the client, is applied to the bottles. It's so fast and EASY!

- USP's**
- Small quantities possible
 - Delightful fragrance
 - Beautiful bottle options
 - Fast delivery
 - No upfront investment
 - Easy to reorder

HOME FRAGRANCE NEW BY HAIL EUROPE

At HAIL Europe we love making scents of the world. When someone enters a customer's store, hotel, or airline, we want them not just to smell it, but experience it.

Together with one of our perfumers, customers can discover and define their signature scent and compose the perfect fragrance for their brand in their packaging. Whether this is a fragrance with artistic merit, a touch of masculinity with feminine allure, or the smell of freshly laundered sheets hanging in the sun.

HAIL Europe will connect a scent to the brand's colours, the products you are buying, or the feelings you are experiencing when you enter a hotel. HAIL Europe can help brands create a unique olfactory logo: a signature scent.

The relaxing ambience is no accident,
it's perfectly constructed.
